Installation, maintenance and usage tips:

Congratulations, you have the Monsieur lamp!

So take care when unpacking and place the pieces on a flat surface to prevent damage.

Monsieur lamp is made of wood (with an eco-friendly water-based varnish) and is therefore alive! As a result, its appearance can vary (grainy, shaded). The concrete in the «shirt» can also have little bubbles and a slightly varied tone. In short, it has all the charm of a unique item for your home!

This lamp is designed for indoor use and in dry locations only.

Do not connect until it is fully and properly assembled.

For your Monsieur lamp to remain beautiful, be sure to remove any dust with a damp cloth without using detergent.

Do not plug the cord or plug if it is damaged. If the lamp is not working properly, if it fell, was damaged or remained outside, do not attempt to use it.

For it to remain in shape, unplug the Monsieur lamp before changing the bulb.

In conclusion, be reasonable, use your lamp in normal use!

DO NOT PUT THE MONSIEUR LAMP WITHIN REACH OF CHILDREN UNDER 10 YEARS.

Only use bulbs with low-heat LED or compact fluorescent type (CFL).  Classe II units light  220-240V 25W MAX lamp socket E27
