

FLANELLE LAMP

The ability of concrete to embody both delicateness and sensuality poses an enticing challenge! Gone's took up the mantle and created the "Flanelle" lamp, with all the softness of a ribbon that twists as it helps you to unwind.

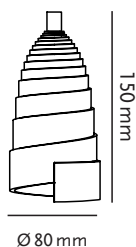

CONCEPT

The Flanelle lamp combines the flowing sensuality and lightness of a ribbon with the raw texture of concrete. Made from a single piece of 100% mineral, ultra-fine concrete, the technically challenging manufacturing process both reflects and affirms the contrasts inherent in the design.

SPECIFICATIONS

DIMENSIONS & WEIGHT

Weight:
0.600 kg

MATERIAL

* 100% mineral concrete with a unique patented formula
* "Cloud" colouring: light grey with blue sheen

TECHNICAL SPECIFICATIONS

* 220 - 240 V 50-60Hz
* Bulb not provided
* Environment: indoor

DECLINATIONS

* Black pearl finish metal ceiling rose & cable clamp
* 2,5 m black textil cord

* Copper finish metal ceiling rose & cable clamp
* 2,5 m black textil cord

CUSTOM-DESIGNED

The *Flanelle* lamp can be customized under certain conditions: (process-coloured concrete, electrical accessories) technical feasibility, minimum order, delivery time, price.

MANUFACTURING & ENVIRONMENT

The whole manufacture takes place in France. The concrete is patented and 100% mineral. The *Flanelle* lamps are made and integrated in our workshop in Lyon.
